

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Family Partnership Charter School - authorized by Blochman Union School District

CDS Code: 42 69112 0111773 0763

School Year: 2025-26

LEA contact information:

Stephanie Eggert,

Executive Director

stephanie.eggert@fpcharter.org

(805) 348-3333

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2025-26 School Year

Projected Revenue by Fund Source

This chart shows the total general purpose revenue Family Partnership Charter School - authorized by Blochman Union School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Family Partnership Charter School - authorized by Blochman Union School District is \$5,517,511, of which \$4772366 is Local Control Funding Formula (LCFF), \$556125 is other state funds, \$109000 is local funds, and \$80020 is federal funds. Of the \$4772366 in LCFF Funds, \$380672 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Family Partnership Charter School - authorized by Blochman Union School District plans to spend for 2025-26. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Family Partnership Charter School - authorized by Blochman Union School District plans to spend \$5499283 for the 2025-26 school year. Of that amount, \$3,375,200 is tied to actions/services in the LCAP and \$2,124,083 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Budgeted expenditures not in the LCAP include personnel expenses such as administrative and clerical staff, facilities expenses such as rent, maintenance, cleaning, and utilities, miscellaneous school supplies and materials, insurance, professional and educational consultants, and other operating services.

Increased or Improved Services for High Needs Students in the LCAP for the 2025-26 School Year

In 2025-26, Family Partnership Charter School - authorized by Blochman Union School District is projecting it will receive \$380672 based on the enrollment of foster youth, English learner, and low-income students. Family Partnership Charter School - authorized by Blochman Union School District must describe how it intends to increase or improve services for high needs students in the LCAP. Family Partnership Charter School - authorized by Blochman Union School District plans to spend \$380,915 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2024-25

This chart compares what Family Partnership Charter School - authorized by Blochman Union School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Family Partnership Charter School - authorized by Blochman Union School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2024-25, Family Partnership Charter School - authorized by Blochman Union School District's LCAP budgeted \$341,890 for planned actions to increase or improve services for high needs students. Family Partnership Charter School - authorized by Blochman Union School District actually spent \$227,998 for actions to increase or improve services for high needs students in 2024-25.

The difference between the budgeted and actual expenditures of \$113,892 had the following impact on Family Partnership Charter School - authorized by Blochman Union School District's ability to increase or improve services for high needs students:

Despite spending less in 2024-25, actions and services for high needs students were not negatively impacted due to more efficient resource allocation and strategic use of existing staff and programs. FPCS maximized the use of state and federal funding, prioritized evidence-based interventions, and leveraged community partnerships. As a result, services not only continued but improved, with increased access to academic support, counseling, and individualized learning plans.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Family Partnership Charter School - authorized by Blochman Union School District	Stephanie Eggert, Executive Director	stephanie.eggert@fpcharter.org (805) 348-3333

Plan Summary [2025-26]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Family Partnership Charter School was established on February 14, 2006 in response to many requests from families and the community in general to serve students on the Central Coast of California. FPCS offers a blend of independent study and in-person instructional days offering alternative public school learning options. FPCS has a professional partnership with its authorizing district, Blochman Unified School District in the Santa Maria Valley, and now operate five learning centers in Santa Barbara and San Luis Obispo counties. The success and positive response from the general public is reflected in the growth and accomplishments of our school. Our annual enrollment and program history reflect an increasing interest in our programs and evolution of services for students. As our program established itself as the resource for families seeking personalized learning for their students, we continued to meet our families' needs for additional options at our centers. Furthermore, FPCS maintains high standards for its management, ensuring responsible fiscal practices and operations that are consistent with state and federal guidelines.

All FPCS teachers are fully credentialed in the appropriate areas as determined by the California Teacher Credentialing Commission. FPCS blended learning models have been developed through the research and implementation of effective instructional strategies and pedagogy including the Montessori methods of instruction, Universal Design for Learning, Personalized Competency-Based Learning, Social Emotional Learning, and Standards-Based Instruction. The blended learning model at each program level and learning center incorporates the specific elements of evidence-based practices that best meet the needs of the students. Strategies and practices are continually modified and improved in order to address the benchmark data that is generated as a result of consistent monitoring of student progress and performance.

FPCS offers elementary, middle, and high school programs that incorporate elements of teacher facilitated in person, on site instruction, home study, and independent study to provide students with a results oriented, personalized educational experience. At all grade levels, students are supported by an advisor (credentialed teacher) assigned to monitor their individual progress and additional instructional staff are available to provide academic interventions as needed. Through this blend of teacher guidance, student independence, and ongoing monitoring and support, FPCS students develop skills and gain experiences which empower them to become self-directed learners. Enrollment has historically been at 348 in 2019-20, 481 in 2020-21 (pandemic school closures), 405 in 2021-22, and 368 in 2022-23. FPCS LCFF Unduplicated Student Count was reported as 400 K-12 students in for 2023-24 through CALPADS.

ENROLLMENT BY GRADE: (Pathways Fall1 Report)

5.8% (23) Kindergarten
5.5% (22) First
7.5% (30) Second
6.5% (26) Third
5.8% (23) Fourth
6/0% (24) Fifth
4.0% (16) Sixth
6.3% (25) Seventh
8.8% (35) Eighth
5.8% (23) Ninth
10.8%(43) Tenth
13.5%(54) Eleventh
14.0%(56) Twelfth

STUDENT GROUPS per CDE: (Pathways Fall1 Report)

45.5% (182) Socio-Economic Disadvantaged
10.8% (15) Students with Disabilities
3.25% (13) English Learners
<1% (1) Foster Youth
0% Homeless

STUDENTS by RACE (Pathways Fall1 Report)

<1% (1-4) Chinese, Filipino, Japanese, Korean, and Other Pacific Islander
1.50% (6) Other Asian
2.75% (11) Black or African American
28.5% (114) American Indian/Central and South American
65.6% (262) White

All baseline metrics will use DataQuest 2022-23 data for state reported information and iReady for local Reading and Math data.

Through ongoing meetings with staff, the Governing Board, and FPCS's Parent Advisory Committee this LCAP was developed based on input provided as the draft was created through the school year. From those meetings and annual surveys, FPCS established three goals with metrics addressing local assessment data and the Fall 2023 California Dashboard. The goals, metrics, and action narratives within are focused on addressing the state's local priorities as well as the areas FPCS can improve overall student success. Conditions of Learning, State Standards, Parent Involvement, Pupil Achievement, Pupil Engagement, School Climate, Course Access, and other Pupil Outcomes are all highlighted within the plan.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Based on results from the California School Dashboard results from 2023 and local 2023-24 data through iReady and the Spring Writing Benchmark.

ACADEMICS ENGAGEMENT:

Blue - K-8 Chronic Absenteeism

Orange - Graduation Rate (declined 8.2 points)

Standard Met - Access to Broad Course of Study

Dashboard data released in Fall of 2023 showed FPCS declined in both ELA and Math for students meeting or exceeding standards on the states SBAC assessments for students in Grades 3-8 & 11. FPCS scored higher than the county and state averages in ELA and Science. The graduation rate at FPCS has traditionally been well above 90%. Since the shutdown the charter has seen an increase in students enrolling significantly credit deficient. The 2023 senior class had 5 students not graduate with their cohort of 62 students: three were 5th year seniors, one was a dropout, and one left FPCS at the end of the 2021-22 school year as a 11th grade but never enrolled in another California public school. In response to the need to support credit deficient high school students towards a diploma, we have put some strategies in place. Of these is we offered summer school for the first time in 2023, require students to meet more regularly with their Advisors, and the Governing Board adopted a credit deficiency program for seniors who are more than a semester behind to graduate through an alternative program. Of the 62 students that were seniors, only 15 students were enrolled at our charter all four years of highschool. This year, FPCS should show a significant improvement with the graduation and dropout rates.

CONDITIONS & CLIMATE:

Blue - K-12 Suspension Rate

Standard Met - Basics of Teachers, Instructional Materials, Facilities

Standard Met - Local Climate Survey

Standard Met - Parent and Family Engagement

ACADEMIC PERFORMANCE:

Standard Met - Implementation of Academic Standards

Low - College/Career Readiness (30.4% Prepared)

N/A - English Learner Progress (unreportable student group)

FPCS has made improvements to monitor high school students to meet the state paths to College and Career Readiness (CCR). It has fully implemented a new virtual CTE pathway where we will show completers when the charter has reported none for many years through the online pathways through Edgenuity. A second virtual pathway will be fully implemented in 2024-25 to also increase students achieving CCR. Advisors continue to support students with completing their education as an a-g completer and encourage dual/concurrent enrollment at local community colleges. These strategies will increase the CA Dashboard indicator showing FPCS prepares students for college and career development after high school.

English Language Arts

Yellow - declined 27.1 points and 5 points below standard

(Student Groups: Orange - Socioeconomically White Yellow - Hispanic)

Mathematics

Orange - declined 13.3 points and 60.6 points below standard

(Student Groups: Orange - Hispanic Socioeconomically Disadvantaged White)

Discussions with staff this year after reviewing the CA Dashboard, state assessment, and local benchmark results helped determine areas of needed improvement. This helped shape actions we are preparing for the 2024-25 school year and beyond. The use of one-time grant funds will focus on targeted, quality professional development for teachers and instructional assistants. For ELA, the trainings will focus on the science of reading in K-5 and academic vocabulary instruction through accurate usage in student writing K-12. Math instruction will also be an area where ongoing professional development will be provided to K-5 teachers and the 6-12 math teachers as well. Each Three times a month staff meet for three hours in Professional Learning Communities. The admin will structure their time to review data, implement MTSS initiatives, and collaborate on instructional strategies from professional development experiences. Through consistent training and staff collaboration in these academic areas, FPCS aims to increase student scores and improve the performance indicators on the Dashboard.

Below is an overall academic performance on the SBAC as comparable to Santa Barbara County and the state's percent of students meeting or exceeding standards. FPCS students scored higher in ELA and on the science test.

ELA	State 47%	County 39%	FPCS 49%
-----	-----------	------------	----------

MATH	State 35%	County 28%	FPCS 22%
------	-----------	------------	----------

SCIENCE	State 30%	County 25%	FPCS 33%
---------	-----------	------------	----------

All 2023-24 local benchmark data is part of Goal 2 as the baseline for the 2024 LCAP.

FPCS recognizes the importance to improve data results local and state assessments. Administrators will be very strategic of its use of one-time grant funds for educator effectiveness, student interventions to address learning loss, and student services for underserved populations receiving priority of resources and participation. Staff were given input into the goals and actions in the LCAP to drive decisions to improve student outcomes. FPCS will continue to review and act upon its use of its funds for professional development, supports and interventions, increased services to address students' academic and/or emotional needs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

NOT APPLICABLE

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

NOT APPLICABLE

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

NOT APPLICABLE

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

NOT APPLICABLE

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
LCAP Committee & Staff	An LCAP Committee was created in Fall 2023 which included the Executive Director, Principal, two Center Coordinators (K-5 & 6-12), plus a high school English teacher. The committee met four times to gather input and create the draft of the plan's Goals and Metrics. Each scheduled full staff development day and designated Monday meetings, the Admin shares data on student performance to guide discussions to determine professional development needs for continued growth and implementation of research based instructional practices, as well as curriculum effectiveness for improved student outcomes. Staff are surveyed for PD suggestions to assess individual, grade level, or grade span needs. In 2024 a Curriculum Team was established with 10 members to continue work to present to staff as new adoptions are on the horizon in math and ELA. (input for this LCAP was provided 3/18 and 4/22 with a final draft shared on 5/15)
FPCS Advisory Committee	There are four scheduled advisory meetings each school year. Parents/Family and staff participation is sought through school wide communications. In 2024, the meetings were December 14th, January 18th, March 14th, and May 15th. Each meeting events, expenditures, data, and other school related topics are discussed. Input is given and shared with the Executive Director and staff to make final decisions. (input for this LCAP was provided 1/18 and 3/14 with a final draft shared on 5/15)

Educational Partner(s)	Process for Engagement
Governing Board	At regularly scheduled Governing Board meetings data is shared on legislative updates, student performance, expenditures, and professional development initiatives in response. With a final presentation of the 2024 LCAP draft on April 23, 2024 for discussion and input of Goals and Actions for the June 2024 plan adoption.
Annual School Family Survey	Every spring parents/guardians/caregivers are surveyed on the sense school safety, connectedness, and the ability to give input into their students' educational decisions. In 2024, a question was added about family education nights on a number of student related topics. (spring 2024 survey included in the LCAP)
Annual School Student Survey	Every spring students in second to twelfth grades are surveyed on school safety, connectedness, and the ability to give input into individual educational decisions. Also surveyed are ideas for clubs or high school courses. (spring 2024 survey included in the LCAP)
Consultation with Special Education Specialist	Consultation with SpEd staff as the LCAP Goals and Actions relates to students with disabilities through review of current programs and suggestions for additional supports. FPCS plans to provide virtual tutoring and student with exceptional needs will be a priority of this option. (meeting was held on 5/3)

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Administration met with groups of teachers and parents throughout the school year to complete the 2024 Local Control Accountability Plan (“LCAP”). Through analysis of the most current data, CA Dashboard results of Fall 2023, and survey input supported the engagement of stakeholders through the development process. A LCAP Committee consisting of the ED, Principal, K-5 Center Coordinator, G6-12 Center Coordinator, and high school teacher helped draft the Goals and Actions that were presented to the groups of educational partners. Throughout each school year, data is shared with educational partners of local and state assessment results including CA Dashboard performance results. The WASC 2022 accreditation process led to the development of two Learner Needs: Learner Need 1: Increase student math outcomes measured by local and state assessments through focused professional staff development. And Learner Need 2: The development of common formative writing prompts with rubrics for biannual benchmarks assessments created at PLC’s. It was important to consider WASC Learner Needs while developing the LCAP's goals for common student outcomes. The Governing Board received updates on the development of the LCAP throughout the year.

The need for a more comprehensive group of staff was evident for comprehensive data analysis, curriculum effectiveness, and to gather staff input became apparent. It was decided to assemble a Curriculum Team. March 2024 the Curriculum Team met and started with reviewing the Governing Board adopted Mission, Vision, and Motto to establish purpose and goals. The objective was to govern the process. for future evaluation of practices, curriculum, and gathering staff input for the team to make decisions with the administration to improve student

outcomes for continuous improvement. This group will be an integral part of the ongoing LCAP three year process. The participants agreed to a two-year commitment representing a balanced cross-section of grades, departments, and centers.

Additional influences to the development of Actions for the LCAP Goals from educational partners included:

ANNUAL FAMILY SCHOOL SURVEY:

Baseline data for Goal 1 and input for topics of Family Education topics and school climate.

ANNUAL STUDENT SCHOOL SURVEY:

Baseline data for Goal 1 and input for additional clubs, programs, and school climate.

FPCS ADVISORY COMMITTEE:

The Principal met with the committee in December, January and March of the 2023-24 school year to share the draft of the plan's Goals and Actions to give the opportunity for input beyond the Annual Family Survey.

CONSULTATION WITH SPECIAL EDUCATION PROGRAM SPECIALIST:

Input for Goal 1,2, and 3 related to students with disabilities through review of current programs and suggestions for additional supports (i.e. virtual tutoring).

The final LCAP draft was presented to educational partners over the course of the spring semester. The credentialed staff reviewed the draft on April 18, 2024, the Governing Board on April 23, 2024, and the FPCS Advisory Committee was presented the draft on May 16, 2024. The 2024 LCAP process concludes with a Public Hearing and then followed by adoption a Regular Governing Board Meeting on Tuesday, June 18, 2024.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	ENHANCE PARTNER ENGAGEMENT TO BUILD SCHOOL CONNECTIONS FPCS aims to create a school culture of inclusivity and connectedness through staff development and family engagement to create a supportive, collaborative learning environment that fosters student success and well-being.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
 Priority 3: Parental Involvement (Engagement)
 Priority 5: Pupil Engagement (Engagement)
 Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

The foundation of our charter is a partnership between staff and students for student success. The decision to develop the goal of enhancing partner engagement for student progress and outcomes reflects a commitment to leveraging external partnerships and resources to enhance the overall educational experience and educational experience for students. This goal highlights the importance of collaboration, reflection, and community involvement in driving student achievement and school improvement efforts.

Measuring and Reporting Results

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

FPCS's overall implementation of Goal 1 and the actions in 2024–25 showed positive results. This is reflected on the 2024 California School Dashboard results. There are measurable improvements in key indicators such as graduation rates, English Language Arts and Math performance. The Dashboard also showed FPCS maintained its target metrics in chronic absenteeism, suspension/expulsion rates, and Williams/Valenzuela compliance. This shows evidence that FPCS is fostering more supportive and inclusive environments. These improvements indicate that LCAP-driven investments and strategies are effectively addressing student needs and advancing educational equity. Increased alignment between LCAP goals and targeted actions—especially those aimed at high-needs students—resulted in more support and academic growth.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Expenditures in credentialed staffing was higher than budgeted. Family Education Opportunities did not meet the projected amount due to the fact two of the three events were hosted by FPCS staff of the RULER and Environment Education Committees. One event was contracted with a Licensed Family and Marriage Therapist.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Over 2024-25 specific actions implemented have shown strong effectiveness in making progress toward LCAP goals. Investments in recruiting and retaining highly qualified teachers, paired with focused professional development aligned to student needs (such as culturally responsive teaching and data-driven instruction), have strengthened instructional quality and student academic outcomes. Increased family engagement efforts—such as regular communication in multiple languages, parent workshops, opportunities for involvement (at the center level or advisory committee participation) - have improved collaboration between FPCS staff and families; evidence of contributing to higher student attendance and participation. Additionally, school climate has also improved through the adoption of social-emotional learning programs, inclusive practices, and expanded mental health support. These combined efforts are positively reflected in California School Dashboard indicators and ongoing stakeholder feedback.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

After reflection, an addition was made to Goal 1 Action 1 regarding highly qualified instructional staff. Professional development is a priority at FPCS to address student needs from administration observations, outcome data, and staff input to create an annual PD plan.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	FULLY CREDENTIALLED TEACHERS & APPROPRIATELY ASSIGNED (Priority 1)	QUALIFIED TEACHING STAFF FPCS will continue to employ credentialed and appropriately assigned teaching staff. As new staff are hired, qualified teachers with strong subject knowledge and a passion for education will be the priority through the hiring process. Providing the necessary support to grow as an educator through county induction programs, mentoring partnerships with seasoned staff, and training or workshops will be offered for new teachers to enhance their instructional skills. For all qualified current staff professional training will be provided that are effective, research-based practices.	\$2,829,083.00	No

Action #	Title	Description	Total Funds	Contributing
		Acknowledgement of teaching development support and resources to excel in their roles will be a focus each year with staff input for training goals. ***This Action also impacts and addresses metrics 1.4, 1.5, 1.6, 1.7, and 1.8***		
1.2	FAMILY EDUCATION OPPORTUNITIES (Priority 3)	FPCS will provide educational events and resources on topics related to child development, social emotional issues, student health/safety, as well as academics to address overall student well-being and success. 1- ANNUAL SURVEY Provide parents with the opportunities to give input to topics of need or interest as it relates to their student or overall family life. Utilize staff and guest speakers to address interests by scheduling 2-4 events per school year remotely to give easy access to all families. 2- HOME TO SCHOOL CONNECTION Promote strong relationships between staff and families to support all students in their individual growth. Seek ways to promote student progress and learning. Regular communication will be handled through emails, phone calls, meetings, digital platforms, etcetera to keep families informed and involved. (ParentSquare, GoToConnect, Edlio) 3- FAMILY RESOURCES Provide families with resources, tips, and guidance to support learning at home, including recommended books, activities, and online tools. In addition, make available community and out-of-school agency contacts or resources as needed based on individual needs. (ParentSquare and school website) ***This Action also addresses metric 1.3***	\$5,000.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	IMPROVE STUDENT ACADEMIC OUTCOMES: FPCS aims to enhance student performance, close achievement gaps, and promote a well-rounded education that aligns with both local and state priorities.	Broad Goal

State Priorities addressed by this goal.

Priority 2: State Standards (Conditions of Learning)
 Priority 4: Pupil Achievement (Pupil Outcomes)
 Priority 5: Pupil Engagement (Engagement)
 Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

By setting explicit goals related to academic outcomes, FPCS can measure progress over time and continually refine strategies to better support student learning and success. the development of an LCAP goal focused on improving student academic outcomes reflects our our commitment to state policy, focusing on community needs, promoting equity and access, while ensuring accountability to provide a high-quality education to all students.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.
A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

LCAP Goal 2 focuses on achieving positive student outcomes as measured by local and state assessments. In 2024–25, data indicates that all metrics were either maintained or showed improvement, reflecting steady academic progress. Particular attention is being given to math and science, where assessment data highlights both growth and areas needing continued support. Ongoing professional development is being provided to strengthen instructional strategies. Additionally, targeted student supports, such as tutoring, small group instruction, and access to learning tools are being provided, especially for traditionally underserved student groups, including socio-economically disadvantaged students, English Learners, and transitional youth. These efforts are designed to close achievement gaps and ensure equitable access to rigorous academic opportunities.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Despite spending less in 2024–25, actions and services for high needs students were not negatively impacted due to more efficient resource allocation and strategic use of existing staff and programs. FPCS maximized the use of state and federal funding, prioritized evidence-based interventions, and leveraged community partnerships. As a result, services not only continued but improved, with increased access to academic support, counseling, and individualized learning plans.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Evidence shows that the actions of Goal 2 were effective in making progress toward improving student outcomes.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Staff Professional Development was moved from Goal 2 Action 1 to Goal 1 Action 1 for 2025-26.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	STUDENT ACCESS TO BROAD COURSE OF STUDY (Priority 7)	FPCS will effectively implement state standards through a comprehensive and diverse curriculum, ensuring that all students receive a well-rounded education aligned with educational benchmarks and California State Standards. 1- CURRICULUM TEAM AND REVIEW OF CURRENT COURSE OF STUDIES Utilize the Curriculum Team of staff inclusive of a cross-section of centers, grade levels, and departments to identify existing courses and educational programs offered to ensure the state standards are being taught and identify any gaps in instruction. 2- ACADEMICS WITH INTEGRATED INTERVENTION AND SUPPORTS Provide a well rounded education experiences to all students in core subjects K-12. In high school, offer a variety of career/tech courses and electives to engage student interests. English Learners will receive designated English Language Development instruction with integrated ELD whole class to enrich vocabulary and increase students' English proficiency in the four domains of Listening, Speaking, Reading, and Writing. For students struggling with on grade level standards, assign additional instructional support through small groups, online programs, tutoring, etc and monitor their progress. K-5 PROGRAM: Journeys Math in Focus Mystery Science Saavas MyWorld MIDDLE SCHOOL: Journeys Math in Focus Mystery Science or Amplify Saavas MyWorld HIGH SCHOOL: Edgenuity Virtual Synchronous Courses Community College Enrollments	\$242,000.00	Yes

		INTERVENTIONS AND SUPPORTS Kindergarten - 8th Grade: -iReady Reading or Math individualized lessons High School: -iReady Math or Reading -Edgenuity MyPath -Tutor on Demand -Summer Credit Recovery Students with Disabilities: -Read Live per IEP -CoWriter per IEP English Learners: -Grades 6-12 Read Live Virtual Tutors: -Contract with tutors as needed SOCIAL EMOTIONAL SUPPORT: -Yale University's RULER Method -Presence Learning Counseling (MBH) 3- PROFESSIONAL LEARNING COMMUNITIES FOR STAFF INPUT Based on data and the Curriculum Team meetings, communicate to teaching staff the proficiencies and gaps in student progress to ensure that all required standards are covered across grade levels and subject areas. 4- INTEGRATE APPROACHES FOR EQUAL ACCESS AND DIVERSE CURRICULUM EXPERIENCES Encourage interdisciplinary approaches within the curriculum. Identify opportunities to connect concepts across different subjects, promoting broader understanding and application of knowledge. Expand elective and enrichment programs to provide students with a broader course of study. Offer a range of options spanning arts, sciences, humanities, and vocational subjects to cater to diverse interests and learning styles. 5- SOCIAL EMOTIONAL SUPPORT Through the MTSS process, offer mental behavioral health (MBH) counseling to any student with a need for professional emotional support.		

Action #	Title	Description	Total Funds	Contributing
		Student with disabilities who require MBH will have the service added to their Individualized Education Plan. 6- EDUCATIONAL PARTNERSHIPS Regularly seek input from staff, students, the Governing Board, and families regarding the progress students and the school is making towards the LCAP goals and metrics with the deliberate goal of transparency, inclusiveness, and improvement. ***This Action also addresses metrics 2.2, 2.3, 2.4, 2.5, 2.6, 2.7, 2.8, and 2.9***		
2.2	TARGETED STAFFING	FPCS will hire an instructional assistant for each K-5 blended independent study classroom to provide instructional support.	\$188,572.00	Yes

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	IMPROVE HIGH SCHOOL STUDENT OUTCOMES FPCS aims to increase the percentage of graduating students who demonstrate proficiency in essential college and career readiness skills and knowledge necessary for success in post-secondary education and a variety of career paths.	Focus Goal

State Priorities addressed by this goal.

Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 7: Course Access (Conditions of Learning)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

FPCS's goal to enhance the learner outcomes of its high school students to achieving high school diplomacy underscores the commitment to an alternative high school learning option. Prior data helped design comprehensive strategies that involve targeted actions, resource allocation, and educational partnership involvement to ensure that every student receives a quality education and is equipped for success beyond high school. This goal demonstrates our charter's commitment to student excellence and reflects our vision of empowering all learners to reach their fullest potential.

Goal Analysis [2024-25]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

LCAP Goal 3 shows positive growth on the California School Dashboard, with increases in both the graduation rate and the increase of Career Technical Education (CTE) pathways. FPCS will celebrate its first CTE completer in 2024–25, marking a significant milestone in expanding college and career opportunities for students. While the College and Career Readiness (CCR) indicator remains an area for continued improvement, strategic planning is underway. In 2025–26, the district will offer a total of eight CTE pathways, which is expected to significantly boost the number of CTE completers and positively impact the CCR indicator moving forward. These efforts support broader goals of preparing all students—especially those from traditionally underserved groups—for postsecondary success.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

N/A

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Working to increase CTE opportunities will have a significant impact on the progress towards meeting Goal 3 outcomes.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

No changes made to Goal 3.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	CAREER OR TECH EDUCATION	Recognizing the importance of preparing students for diverse college and career opportunities, we plan to expand our current career and technology elective courses plus CTE Pathways virtually as well as through the curriculum platforms. PERSONALIZED LEARNING AND STUDENT CHOICE: Foster personalized learning approaches that cater to individual student needs and interests. Utilize online and virtual CTE options to support students towards CTE Pathway completion. Provide virtual tutoring for students at-risk focusing on student groups underserved. CENTER CULTURE: Foster a positive and inclusive learning culture that values academic achievement and personal growth. Ensure safe and supportive learning environments that promote student well-being. CONTINUOUS CURRICULUM REVIEW: Regularly evaluate programs and interventions to assess effectiveness. Use feedback mechanisms to continuously improve strategies and initiatives. By implementing these actions within a cohesive high school program, FPCS aims to significantly equip students with the skills and knowledge needed for success in higher education and the workforce.	\$104,950.00	No

Action #	Title	Description	Total Funds	Contributing
3.2	COLLEGE AND CAREER READINESS (Priority 4)	Students can achieve College and Career Readiness (CCR) as defined by the California Dashboard's indicator by demonstrating the following: Early Academic Proficiency (EAP) from 11th grade CAASPP scores, a-g completer, CTE Pathway completer, dual enrollment at a community college for two semesters with a grade of C or greater. STUDENT ENGAGEMENT: Through regular staff to student advisement appointments, Advisors will counsel and guide students through the options available to demonstrate CCI Readiness. Staff will support students through the varying ways to succeed to be CCR. ENGLISH LEARNERS, SOCIO-ECONOMICALLY DISADVANTAGED, and FOSTER YOUTH: The student groups above are historically underserved and traditionally at-risk for not graduation. In an effort FAMILY INVOLVEMENT: Through strong partnerships with families to support student learning and development, communication of progress will be regularly shared. Provide high school student education events of the options for student success virtually. COMMUNITY PARTNERSHIPS: Engagement of community colleges and organizations will provide exposure to varying career fields. Community college connections for dual enrollment and FAFSA student aid, attendance to career day events, and UC campus visits will expose students to the opportunities available for them beyond graduation.	\$5,000.00	Yes
3.3	GRADUATION OUTCOMES	Increase high school graduation rates applying the Governing Board policy for student engagement and adequate academic progress. INPUT AND DECISION MAKING: Be inclusive of students and families as students progress through high school requirements to achieve a diploma. Early detection of at-risk high		No

Action #	Title	Description	Total Funds	Contributing
		school students and following the steps of the Independent Policy will ensure student engagement and academic progress, address any concerns immediately, and determine the appropriateness of an independent study program for individual students. EARLY INTERVENTION AND SUPPORT: Staff will regularly monitor and counsel students to remain engaged and make adequate academic progress. Through that connection students identified as at-risk will be offered targeted interventions and support to remain on track for their individual academic goals. Implement early intervention programs for at-risk students to address academic and non-academic barriers to success.		
3.4	POST GRADUATION OUTCOMES	Utilizing National Student Clearinghouse as a resource to monitor graduate outcomes to determine the rate of our students who enroll in a post-secondary institution.	\$595.00	No

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
2.1	Action: STUDENT ACCESS TO BROAD COURSE OF STUDY (Priority 7) Need: Socio-economically Disadvantaged (SED) Scope: Schoolwide	Access to a broad course of study with targeted interventions and supports will improve outcomes of SED students.	2023 CA Dashboard ELA=Orange, -26.5 DFS Math=Orange, -89.2 DFS

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
2.2	Action: TARGETED STAFFING Need: Socio-Economically Disadvantaged (SED) Scope: Schoolwide	By providing Instructional Assistants in the classroom, the adult to student ration will be lowered. The IAs will support the teacher with 1 on1 or small group instruction which will support SED students.	1 IA per K-5 classroom
3.2	Action: COLLEGE AND CAREER READINESS (Priority 4) Need: Socio-economically Disadvantaged (SED) Source: Pathways SIS LCFF Report Scope: Schoolwide	SED students in high school are 48% of all high school students (84/175). Bus passes support students' attendance to the centers for high school support classes and Advisor input more regularly. English Learners in high school were no more than 3-4 students during the school year with only two students taking the ELPAC by May 2024.	2023 CA Dashboard LOW 19.4% Prepared, Socio-economically Disadvantaged

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness
-------------------	--------------------	---	------------------------------------

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

FPCS does not have any Limited Actions.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

NOT APPLICABLE TO CHARTER SCHOOLS

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students		
Staff-to-student ratio of certificated staff providing direct services to students

Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
 - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
 - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statutes of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
 - If the LEA has unexpended LREBG funds the LEA must provide the following:
 - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
 - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
 - An explanation of how the action is aligned with the allowable uses of funds identified in [EC Section 32526\(c\)\(2\)](#); and
 - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by [EC Section 32526\(d\)](#).
 - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the [LREBG Program Information](#) web page.
 - Actions may be grouped together for purposes of these explanations.
 - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
 - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32526(d), to provide the information identified above or to include actions funded with LREBG funds within the 2025-26, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: [EC Section 52060\(g\)](#) and [EC Section 52066\(g\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: [EC Section 47606.5\(d\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062](#);
 - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see [Education Code Section 52068](#); and
- For charter schools, see [Education Code Section 47606.5](#).

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
 - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
 - Inclusion of metrics other than the statutorily required metrics
 - Determination of the target outcome on one or more metrics
 - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
 - Inclusion of action(s) or a group of actions
 - Elimination of action(s) or group of actions
 - Changes to the level of proposed expenditures for one or more actions
 - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
 - Analysis of effectiveness of the specific actions to achieve the goal
 - Analysis of material differences in expenditures
 - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
 - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
 - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
 - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
 - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
 - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: [EC Section 42238.024\(b\)\(1\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.
- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
 - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
 - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.
- **Required metrics for actions supported by LREBG funds:** To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.
 - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #
• Enter the metric number.
Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
 - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
 - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
 - Indicate the school year to which the baseline data applies.
 - The baseline data must remain unchanged throughout the three-year LCAP.
 - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
 - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
 - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
 - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
 - Include a discussion of relevant challenges and successes experienced with the implementation process.
 - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
 - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
 - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
 - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
 - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
 - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
 - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
 - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
 - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
 - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
 - Professional development for teachers.
 - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
 - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
 - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
 - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to [EC Section 32526\(d\)](#). For information related to the required needs assessment please see the Program Information tab on the [LREBG](#)

[Program Information](#) web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the [California Statewide System of Support LREBG Resources](#) web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32526(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in [EC Section 32526\(c\)\(2\)](#).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
 - Identify the action as an LREBG action;
 - Include an explanation of how research supports the selected action;
 - Identify the metric(s) being used to monitor the impact of the action; and
 - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 CCR Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA’s unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA’s needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.
- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
 - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
 - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
 - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
 - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
 - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
 - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
 - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
 - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.
- **4. Total Planned Contributing Expenditures (LCFF Funds)**
 - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
 - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
 - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
 - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
 - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
 - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
 - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
 - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
November 2024

2025-26 Local Performance Indicator Self-Reflection

Local Educational Agency (LEA)	Contact Name and Title	Email and Phone
Family Partnership Charter School - authorized by Blochman Union School District	Stephanie Eggert, Executive Director	stephanie.eggert@fpcharter.org (805) 348-3333

Introduction

The California State Board of Education (SBE) approved standards for the local indicators that support a local educational agency (LEA) in measuring and reporting progress within the appropriate priority area.

This template is intended as a drafting tool and based on the Local Performance Indicator Quick Guide published by CDE in January 2024.

Performance Standards

The approved performance standards require an LEA to:

- Annually measure its progress in meeting the requirements of the specific Local Control Funding Formula (LCFF) priority.
- Report the results as part of a non-consent item at the same public meeting of the local governing board/body at which the Local Control and Accountability Plan (LCAP) is adopted.
- Report results to the public through the Dashboard utilizing the SBE-adopted self-reflection tools for each local indicator.

This Quick Guide identifies the approved standards and self-reflection tools that an LEA will use to report its progress on the local indicators.

Local Indicators

The local indicators address the following state priority areas:

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at <https://www.cde.ca.gov/ds/ad/tamo.asp>.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Implementation of State Academic Standards (LCFF Priority 2)

The LEA annually measures its progress implementing state academic standards; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Parent and Family Engagement (LCFF Priority 3)

This measure addresses Parent and Family Engagement, including how an LEA builds relationships between school staff and families, builds partnerships for student outcomes and seeks input for decision-making.

LEAs report progress of how they have sought input from parents in decision-making and promoted parent participation in programs to its local governing board or body using the SBE-adopted self-reflection tool for Priority 3 at the same public meeting at which the LEA adopts its LCAP, and reports to educational partners and the public through the Dashboard.

School Climate (LCFF Priority 6)

The LEA administers an annual local climate survey that captures a valid measure of student perceptions of school safety and connectedness, in at least one grade within each grade span(s) the LEA serves (e.g., TK-5, 6-8, 9-12), and reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and to educational partners and the public through the Dashboard.

Access to a Broad Course of Study (LCFF Priority 7)

The LEA annually measures its progress in the extent to which students have access to, and are enrolled in, a broad course of study that includes the adopted courses of study specified in the California Education Code (EC) for Grades 1-6 and Grades 7-12, as applicable, including the programs and services developed and provided to unduplicated students and individuals with exceptional needs; the LEA then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Expelled Students – County Office of Education (COE) Only (LCFF Priority 9)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Coordination of Services for Foster Youth – COE Only (LCFF Priority 10)

The COE annually measures its progress in coordinating services for foster youth; the COE then reports the results to its local governing board/body at the same public meeting at which the LCAP is adopted and reports to educational partners and the public through the Dashboard.

Self-Reflection Tools

An LEA uses the self-reflection tools included within the Dashboard to report its progress on the local performance indicator to educational partners and the public.

The self-reflection tools are embedded in the web-based Dashboard system and are also available in Word document format. In addition to using the self-reflection tools to report its progress on the local performance indicators to educational partners and the public, an LEA may use the self-reflection tools as a resource when reporting results to its local governing board. The approved self-reflection tools are provided below.

Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities (LCFF Priority 1)

LEAs will provide the information below:

- Number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home
- Number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Note: The requested information are all data elements that are currently required as part of the School Accountability Report Card (SARC).

Note: LEAs are required to report the following to their local governing board/body in conjunction with the adoption of the LCAP:

- The LEA’s Teacher Assignment Monitoring and Outcome data available at <https://www.cde.ca.gov/ds/ad/tamo.asp>.
- The number/percentage of students without access to their own copies of standards-aligned instructional materials for use at school and at home, and
- The number of identified instances where facilities do not meet the “good repair” standard (including deficiencies and extreme deficiencies)

Academic Year	Total Teaching FTE	Clear	Out-of-Field	Intern	Ineffective	Incomplete	Unknown	N/A
2021-22	21.8	54.3%	44.4%	0	.1%	0	0	.3%

Access to Instructional Materials	Number	Percent
Students Without Access to Own Copies of Standards-Aligned Instructional Materials for Use at School and at Home	0	0

Facility Conditions	Number
Identified Instances Where Facilities Do Not Meet The “Good Repair” Standard (Including Deficiencies and Extreme Deficiencies)	0

Implementation of State Academic Standards (LCFF Priority 2)

OPTION 2: Reflection Tool

Recently Adopted Academic Standards and/or Curriculum Frameworks

1. Rate the LEA's progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)			3		
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science				4	

2. Rate the LEA's progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA					5
ELD (Aligned to ELA Standards)				4	
Mathematics – Common Core State Standards for Mathematics					5
Next Generation Science Standards				4	
History-Social Science				4	

3. Rate the LEA's progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
ELA – Common Core State Standards for ELA				4	
ELD (Aligned to ELA Standards)			3		
Mathematics – Common Core State Standards for Mathematics				4	
Next Generation Science Standards				4	
History-Social Science			3		

Other Adopted Academic Standards

4. Rate the LEA's progress implementing each of the following academic standards adopted by the state board for all students.

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5	N/A
Career Technical Education					5	
Health Education Content Standards				4		
Physical Education Model Content Standards				4		
Visual and Performing Arts					5	
World Language				4		

Support for Teachers and Administrators

5. Rate the LEA's success at engaging in the following activities with teachers and school administrators during the prior school year (including the summer preceding the prior school year).

Rating Scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Academic Standards	1	2	3	4	5
Identifying the professional learning needs of groups of teachers or staff as a whole				4	
Identifying the professional learning needs of individual teachers				4	
Providing support for teachers on the standards they have not yet mastered				4	

Optional Narrative (Limited to 1,500 characters)

6. Provide any additional information in the text box provided in the Dashboard that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.

Parental Involvement and Family Engagement (LCFF Priority 3)

Introduction

Family engagement is an essential strategy for building pathways to college and career readiness for all students and is an essential component of a systems approach to improving outcomes for all students. More than 30 years of research has shown that family engagement can lead to improved student outcomes (e.g., attendance, engagement, academic outcomes, social emotional learning, etc.).

Consistent with the California Department of Education's (CDE's) Family Engagement Toolkit: ¹

- Effective and authentic family engagement has been described as an intentional partnership of educators, families and community members who share responsibility for a child from the time they are born to becoming an adult.
- To build an effective partnership, educators, families, and community members need to develop the knowledge and skills to work together, and schools must purposefully integrate family and community engagement with goals for students' learning and thriving.

The LCFF legislation recognized the importance of family engagement by requiring LEAs to address Priority 3 within their LCAP. The self-reflection tool described below enables LEAs to reflect upon their implementation of family engagement as part of their continuous improvement process and prior to updating their LCAP.

For LEAs to engage all families equitably, it is necessary to understand the cultures, languages, needs and interests of families in the local area. Furthermore, developing family engagement policies, programs, and practices needs to be done in partnership with local families, using the tools of continuous improvement.

Instructions

This self-reflection tool is organized into three sections. Each section includes research and evidence-based practices in family engagement:

1. Building Relationships between School Staff and Families
2. Building Partnerships for Student Outcomes

3. Seeking Input for Decision-Making

Based on an evaluation of data, including educational partner input, an LEA uses this self-reflection tool to report on its progress successes and area(s) of need related to family engagement policies, programs, and practices. This tool will enable an LEA to engage in continuous improvement and determine next steps to make improvements in the areas identified. The results of the process should be used to inform the LCAP and its development process, including assessing prior year goals, actions and services and in modifying future goals, actions, and services in the LCAP.

LEAs are to implement the following self-reflection process:

1. Identify the diverse educational partners that need to participate in the self-reflection process in order to ensure input from all groups of families, staff and students in the LEA, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
2. Engage educational partners in determining what data and information will be considered to complete the self-reflection tool. LEAs should consider how the practices apply to families of all student groups, including families of unduplicated students and families of individuals with exceptional needs as well as families of underrepresented students.
3. Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each of the 12 practices using the following rating scale (lowest to highest):
 - 1 – Exploration and Research
 - 2 – Beginning Development
 - 3 – Initial Implementation
 - 4 – Full Implementation
 - 5 – Full Implementation and Sustainability
4. Based on the analysis of educational partner input and local data, respond to each of the prompts pertaining to each section of the tool.
5. Use the findings from the self-reflection process to inform the annual update to the LCAP and the LCAP development process, as well as the development of other school and district plans.

Sections of the Self-Reflection Tool

Section 1: Building Relationships Between School Staff and Families

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Practices	Rating Scale Number
1. Rate the LEA's progress in developing the capacity of staff (i.e., administrators, teachers, and classified staff) to build trusting and respectful relationships with families.	4
2. Rate the LEA's progress in creating welcoming environments for all families in the community.	5

Practices	Rating Scale Number
3. Rate the LEA's progress in supporting staff to learn about each family's strengths, cultures, languages, and goals for their children.	4
4. Rate the LEA's progress in developing multiple opportunities for the LEA and school sites to engage in 2-way communication between families and educators using language that is understandable and accessible to families.	5

Building Relationships Dashboard Narrative Boxes (Limited to 3,000 characters)

- Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Relationships Between School Staff and Families.

Staff builds close connections with students and families throughout their time at FPCS. Teachers in grades 6-12 often serve students for the entirety of their middle school/high school years. In all grades parents are invited to participate in weekly synchronous advisory meetings with students and parents. At the elementary level, parent conferences are held twice yearly in person, to review student progress. Parents actively participate in chaperoning field trips, volunteering in class, and attending school events such as the All School Orientation, STEAM Expo, jogathons, school picnics, and promotion/graduation ceremonies.

- Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Relationships Between School Staff and Families.

This year FPCS held three family education nights that were virtual. The covered social emotional awareness, strategies to support students with anxiety by a licensed family counselor, and the effects of plastics to the planet. Input from educational partners will guide what FPCS offers each year. Topics will include mental health, peer relationships, academic strategies, and many more. Moving forward attendance will be a discussion to promote these events more so more families participate.

- Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Relationships Between School Staff and Families.

The FPCS Advisory Committee of community members who are representation of hispanic student groups. Results of 2023-24 surveys indicate that students in underserved students groups are in agreement the implementation of building relationships are adequate at FPCS. Next year's LCAP goal to provide family education aims to strengthen that connection.

Section 2: Building Partnerships for Student Outcomes

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA's current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Practices	Rating Scale Number
5. Rate the LEA's progress in providing professional learning and support to teachers and principals to improve a school's capacity to partner with families.	4

Practices	Rating Scale Number
6. Rate the LEA's progress in providing families with information and resources to support student learning and development in the home.	4
7. Rate the LEA's progress in implementing policies or programs for teachers to meet with families and students to discuss student progress and ways to work together to support improved student outcomes.	5
8. Rate the LEA's progress in supporting families to understand and exercise their legal rights and advocate for their own students and all students.	4

Building Partnerships Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA's current strengths and progress in Building Partnerships for Student Outcomes.

FPCS teachers meet with individual students and parents weekly to discuss academic progress and performance. During the meetings, additional support and intervention is identified and planned if appropriate. Centers actively engage with the student study team process where parents are invited to a multi-disciplinary team meeting to identify areas of support and or intervention for struggling students. The meeting reconvenes after the implementation of the interventions to gauge their effectiveness. Students who are experiencing difficulty with consistent attendance and/or academic performance are provided with a Student Improvement Plan which is developed with parent input. The plan outlines specific requirements necessary for the student to demonstrate adequate engagement. The plan also includes a follow up date, which the parent also is required to attend. Elementary teachers hold parent conferences twice yearly to update parents on overall academic progress. K-12 teachers, coordinators, and administrators regularly send information to parents via Parent Square. Through the PS platform, parents are provided with real time reminders of upcoming events, a need for parent support, and ways to help support their students in our independent study model. Parents are consistently provided with a document outlining their parent rights at the start of the 504 and IEP process. Parent participation is welcomed and encouraged at all conferences, SST, SIP, 504, and IEP meetings where student progress and outcomes are discussed..

2. Based on the analysis of educational partner input and local data, briefly describe the LEA's focus area(s) for improvement in Building Partnerships for Student Outcomes.

FPCS uses the Governing Board approved Independent Study Policy as the foundation for monitoring student engagement and academic progress. Tiered Reengagement strategies are outlined and shared with families to gauge whether students are appropriately placed in our independent study program. The Student Improvement Plan (SIP) is a document of jointly agreed upon actions for a student to remain enrolled at the charter if they are failing to attend regularly or complete their work. Student behavior can also be addressed in the SIP. These efforts are all in place to ensure students are being monitored closely for their success. Professional development this year included three days of Science of Reading for K-5 staff and Discussion Builders for staff teaching 6-12th grades. The work and strategies were spiraled into the staff PLC meetings and other ALL Advisor training days throughout the year.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Building Partnerships for Student Outcomes.

Selecting an independent study charter school is a choice by families for their child(ren) for personalized learning and schedule flexibility. Therefore, family participation at center activities and events is high and well attended by FPCS families.

Section 3: Seeking Input for Decision-Making

Based on the analysis of educational partner input and local data, identify the number which best indicates the LEA’s current stage of implementation for each practice in this section using the following rating scale (lowest to highest):

- 1 - Exploration and Research Phase
- 2 - Beginning Development
- 3 - Initial Implementation
- 4 - Full Implementation
- 5 - Full Implementation and Sustainability

Practices	Rating Scale Number
9. Rate the LEA’s progress in building the capacity of and supporting principals and staff to effectively engage families in advisory groups and with decision-making.	4
10. Rate the LEA’s progress in building the capacity of and supporting family members to effectively engage in advisory groups and decision-making.	5
11. Rate the LEA’s progress in providing all families with opportunities to provide input on policies and programs, and implementing strategies to reach and seek input from any underrepresented groups in the school community.	4
12. Rate the LEA’s progress in providing opportunities to have families, teachers, principals, and district administrators work together to plan, design, implement and evaluate family engagement activities at school and district levels.	4

Seeking Input for Decision-Making Dashboard Narrative Boxes (Limited to 3,000 characters)

1. Based on the analysis of educational partner input and local data, briefly describe the LEA’s current strengths and progress in Seeking Input for Decision-Making.

Administration holds quarterly FPCS Advisory Committees comprised of parents and staff to gather feedback and provide updates on school performance, policy and procedures. Families also have the opportunity to attend monthly board meetings to voice their opinions on varied issues of concern.

2. Based on the analysis of educational partner input and local data, briefly describe the LEA’s focus area(s) for improvement in Seeking Input for Decision-Making.

A 2025 survey indicated that 91% of students and families agree that they are involved in making decisions for the school. That is up 5% from 2024. Our FPCS Advisory Committee meets multiple times throughout the year and accessibility is enhanced through the use of digital media such as Zoom. On an individual student level, upon enrollment parents and teachers discuss students' roadmap to graduation, and information is gathered from the parents on the student's post-secondary plans. Coursework is then adjusted to ensure that students will be able to pursue their post-secondary goals. Ongoing parent conferences at the K-8 level regularly keep parents updated on academic progress and social/emotional development.

3. Based on the analysis of educational partner input and local data, briefly describe how the LEA will improve engagement of underrepresented families identified during the self-reflection process in relation to Seeking Input for Decision-Making.

The engagement of under represented families can be improved by offering family engagement activities at a time that is convenient for working parents. Providing translation services during those events and translated documents utilized in the events will also reach more parents of second language learners.

School Climate (LCFF Priority 6)

Introduction

The initial design of the Local Control Funding Formula recognized the critical role that positive school conditions and climate play in advancing student performance and equity. This recognition is grounded in a research base demonstrating that a positive school climate directly impacts indicators of success such as increased teacher retention, lower dropout rates, decreased incidences of violence, and higher student achievement.

In order to support comprehensive planning, LEAs need access to current data. The measurement of school climate provides LEAs with critical data that can be used to track progress in school climate for purposes of continuous improvement, and the ability to identify needs and implement changes to address local needs.

Introduction

LEAs are required, at a minimum, to annually administer a local climate survey. The survey must:

- Capture a valid measure of student perceptions of school safety and connectedness in at least one grade within each grade span the LEA serves (e.g. TK-5, 6-8, 9-12); and
- At a minimum, report disaggregated data by student groups identified in California Education Code 52052, when such data is available as part of the local school climate survey.

Based on the analysis of local data, including the local climate survey data, LEAs are to respond to the following three prompts. Each prompt response is limited to 3,000 characters. An LEA may provide hyperlink(s) to other documents as necessary within each prompt:

Prompt 1 (DATA): Describe the local climate survey data, including available data disaggregated by student groups. LEAs using surveys that provide an overall score, such as the California Healthy Kids Survey, are encouraged to report the overall score for all students as well as available student group scores. Responses may also include an analysis of a subset of specific items on a local survey and additional data collection tools that are particularly relevant to school conditions and climate.

SCHOOL CLIMATE RESULTS:

COMMUNICATION AND INPUT = 91.0%
93% Students K-5
85% Students 6-12
95% Family

SCHOOL CONNECTEDNESS = 85.3%
76% Students K-5
85% Students 6-12
95% Family

SENSE OF SAFETY = 84.6%
91% Students K-5
82% Students 6-12
81% Family

Prompt 2 (MEANING): Describe key learnings, including identified needs and areas of strength determined through the analysis of data described in Prompt 1, including the available data disaggregated by student group.

It was a key point that the school climate survey yielded results lower than in prior years. Students in K-5 and family responses were more favorable than those of the students in grades 6-12. Student safety is something that needs to be looked into more thoroughly for qualitative data. The information was not broken down by student groups through the annual survey.

Prompt 3 (USE): Describe any changes to existing plans, policies, or procedures that the LEA determines necessary in order to address areas of need identified through the analysis of local data and the identification of key learnings. Include any revisions, decisions, or actions the LEA has, or will, implement for continuous improvement purposes.

FPCS will provide educational events and resources on topics related to child development, social emotional issues, student health/safety, as well as academics to address overall student well-being and success.

1- ANNUAL SURVEY

Provide parents with the opportunities to give input to topics of need or interest as it relates to their student or overall family life. Utilize staff and guest speakers to address interests by scheduling 2-4 events per school year remotely to give easy access to all families. In 2024-25 we held three events. Staff and parents will give input for topics for next year. One area would be strategies to support students at home with learning.

2- HOME TO SCHOOL CONNECTION

Promote strong relationships between staff and families to support all students in their individual growth. Seek ways to promote student progress and learning. Regular communication will be handled through emails, phone calls, meetings, digital platforms, etcetera to keep families informed and involved. (ParentSquare, GoToConnect, Edlio) This year, Zoom call/text was implemented for SMS and phone communications using a school number. Staff have reported it is working very well.

3- FAMILY RESOURCES

Provide families with resources, tips, and guidance to support learning at home, including recommended books, activities, and online tools. In addition, make available community and out-of-school agency contacts or resources as needed based on individual needs. (ParentSquare and school website)

Access to a Broad Course of Study (LCFF Priority 7)

LEAs provide a narrative summary of the extent to which all students have access to and are enrolled in a broad course of study by addressing, at a minimum, the following four prompts:

1. Briefly identify the locally selected measures or tools that the LEA is using to track the extent to which all students have access to, and are enrolled in, a broad course of study, based on grade spans, unduplicated student groups, and individuals with exceptional needs served. (response limited to 1,500 characters)

FPCS utilizes internal measures to track student enrollment in a broad course of study. In grades K-8, classrooms and centers are monitored regularly by the coordinator and the principal to ensure that students are receiving a broad course of study. In grades 6-12, Coordinators and Administration can generate reports from the Pathways Student Information System to determine the number of students enrolled in a-g courses across its three 9-12 centers. Reports can be aggregated to identify ethnicity or unduplicated pupil status.

2. Using the locally selected measures or tools, summarize the extent to which all students have access to, and are enrolled in, a broad course of study. The summary should identify any differences across school sites and student groups in access to, and enrollment in, a broad course of study, and may describe progress over time in the extent to which all students have access to, and are enrolled in, a broad course of study. (response limited to 1,500 characters)

All students in grades K-5 are enrolled in a broad course of study that includes English, Mathematics, Social Sciences, Science, and Physical Education. Both our K-5 Home Study and hybrid programs utilize the Journeys program for reading instruction, Math in focus for math instruction, My World for Social Science instruction, and Mystery Science, or Elevate Science in K-5 HomeStudy, for science instruction. Activities in Visual and Performing Arts, health, and physical education are also provided for implementation both at home and at the school site. Universal Design for Learning strategies and procedures are embedded in each discipline to provide equitable access to all students, including unduplicated student groups and individuals with exceptional needs. Each K-5 classroom taught by a credentialed teacher with targeted support provided by an instructional assistant. Teachers are aware of students English Learners (EL) status and provide unique supports as needed for EL students, depending on their individual needs. All staff in classrooms are aware of students with 504 plans or IEP's and consistently implement required accommodations and modifications as needed. Students who are not meeting standards are discussed at student success team meetings where a multi-disciplinary team of teachers, a program coordinator, and parents collaborate developing targeted interventions geared toward increasing student outcomes. All students in grades 6-12 are enrolled in a broad course of study that includes English, Social Sciences, Foreign Language, Physical Education, Science, Mathematics, Visual and Performing Arts, Applied Arts, and Career Technical Education. All students receive instruction, aligned to California state content standards and curriculum frameworks, as well as any necessary intervention, accommodations, and assistance to meet graduation, college, and career requirements. Access to core academic content and courses that lead to graduation and success is provided to all students regardless of income, race, primary language, disability, and/or family situation. English Learners have access to both designated ELD instruction along with integrated ELD instruction. Students who are struggling to meet standards are provided with supports that include 1:1 instructional time with their advisor, small group, or tutoring. All students, regardless of their ethnicity, background, or disability status are encouraged to complete A-G requirements and are also encouraged to take local community college classes.

3. Given the results of the tool or locally selected measures, identify the barriers preventing the LEA from providing access to a broad course of study for all students. (response limited to 1,500 characters)

All students were provided access to a broad course of study including connectivity and available devices for online learning.

4. In response to the results of the tool or locally selected measures, what revisions, decisions, or new actions will the LEA implement, or has the LEA implemented, to ensure access to a broad course of study for all students? (response limited to 1,500 characters)

FPCS has implemented a comprehensive approach to ensuring equitable access to learning at high levels. Additionally, students were provided with assistance and support from support staff who worked 1:1 with students on their area of deficit. All K-12 students were required to complete online iReady math and some assigned to iReady reading lessons if below their grade level. During the school year staff will again engage in Professional Learning Communities where they can develop targeted plans to address areas of deficits. Regular engagement with student data and ongoing collaboration on improving instructional practices will result in improved student outcomes. Additionally, students in grades 9-12 will have access to an online tutor for assistance with math or language arts work.
